FRIDAY, AUGUST 6, 1887.

## EDITORIAL.

Work hard and practice economy if wheat is up a little.

If you really think we don't exceed the fact from our neighbor that the *Cent X Bay* daily is a good thing and push it along.

The man who furnishes a watering place for poor, tired, thirsty horses may not be sent to Congress but he has performed a religious act that will not be overlooked in the next world.

The man or woman who has saved health, pleasant family relations and a congenital companion has about all there is in this world, unless it is a smile in Cloddyke.

It is a duty we often neglect at this season to give sons and city children an outing of some kind in the hot season. It will pay a financial proposition. You will be out of pocket less for an outing than for doctor bills.

Unless sufficient is educated herself woman's progress cannot be suspended. Our daughters will crowd into the professions, become doctors, lawyers, preachers, teachers. If a woman became a successful writer in the Cloddyke not even the British would question her title to the dust.

A dispatch from Madrid describes a very grave state of affairs in Portugal. According to this correspondent the Portuguese government is setting the constitution at defiance and adopting the most stringent and repressive measures. The police, without legal warrant, enter private dwellings at all hours of the day and night and ransack the property and march the owners off to prison on the most trifling and unfounded charges. A veritable reign of terror is established, and it is the popular belief that the government contemplates jailing its obnoxious financial demands. So severe are the repressive measures adopted by the government that in the opinion of the correspondent, trouble is likely to occur.

A dispatch from Rome says that King Humbert is in correspondence with his sister, the queen dowager of Portugal, on the subject of the present disturbance, and he has instructed the Italian minister at Lisbon to render all assistance in his power to the royal family in case an emergency should arise. The Italian government has placed two men of war under special orders to proceed to Lisbon.

It is reported that the government officers at Washington are feeling alarmed at the prospect of Siberia becoming a successful competitor of the United States in supplying Europe and Asia with wheat; and prompted by their fears have sent out "spies" to examine the situation. This is what Joshua did, sent out "spies" to discover the country.

A fear prevails that by the completion of the McKinley administration, the Asiatic market now opening up to the wheat growers of this country, will be absorbed by the farmers of Siberia. Before 1900 the great Russian railway which is now building will be completed, and it traverses Siberia and will afford means of shipment to the very doors of the Chinese purchasers. This does look a little bad for the future of an Asiatic market for American wheat.

China contains a population of 400,000,000, and there is Japan with 40,000,000 more, and then comes Korea with other millions, all of whom might have been long ago consumers of the American product had American statesmen given as much attention to extending American commerce as they have no "protecting home markets."

Mr. A. J. Conrad, who met with a terrible accident in a runaway near Smithfield, Lane county, last week, and who was thought to have been killed at the time, lived until Wednesday night, when he succumbed to the injuries received.

## OREGON PEOPLE.

S. S. Train, Editor of the *Bulletin*, is a candidate for the Albany Post-office, with a good chance of appointment. Aside from Wm. J. Clarke of the *Gervais Star* no newspaper publisher has reached bottom in the troubled sea of Oregon politics. Mr. Train has been a loyal supporter of Republican principles. He is a veteran grand army man and pioneer member of the Oregon State Grange.

Mrs. Train is a talented woman who held a position on the Oregon World's Fair board. Mr. Train was a supporter of Hermann and Mitchell and has as many friends among the people of his city as any of the candidates.

Editor Mathews of the *Yachats Day News*, did not get the Newport Post-office. He went back to Ex-Postmaster Hammond, a very competent official who served a term before Postmaster Henry took the place. Mr. and Mrs. Henry have given the public good service. They were always on duty and extremely obliging. For two months in the year the Newport office is a hindrance to all, as there is a big transient summer tourist population, followed by a heavy and transitory transient mail. Mr. Hampton is a good fisherman and if McKinley ever comes to the coast as one at Newport is better qualified to introduce him to deep sea or salmon fishing than the new postmaster.

Edwin Stone, Manager of the Oregon Central and Eastern Railroad, has worked hard this summer to secure the tourist travel for Yaquina Bay to which that unquainted summer resort is entitled. But he has had to contend against tremendous odds. First in May and June came the agitation for cut rates by rail and water to take people to the Christian Endeavor convention at San Francisco and it took them by the hundreds. Then came Bryan through Oregon and that kept people away from the Bay in July, together with the cool weather in the valley. He is followed by the Cloddyke craze that carries off all who have the money or can get it by help of family or friends. Mr. Stone has had to fight for business that ordinarily belongs to his road, but he will reap a harvest this month if all signs do not fail.

Leading Republicans say that it is going to be difficult to get Tom Black out of the Portland Custom house. The man who will come nearest to getting the Portland postoffice is probably A. H. Crossman, for a dozen years a leading business man and who has probably a hundred thousand dollars invested in that city. He has a place mine in Southern Oregon where one man with a little pipe washes out \$28 a day. Mr. Crossman was for two terms police commissioner of the city of Portland, and seems to have the widest support among Republicans of this state. He was offered the best place on the Multnomah leg-

Hopelessly lost to happiness is the woman who neglects the health of the most important and delicate organs of her body. If she is weak and sick and nervous, she cannot be efficient and active, she cannot be a good mother, or for herself, or for her children. Health is the thing most worth having in all the world. It is the thing that makes all other good things good, and yet four out of five women are sick and weak and make no real effort to get well. Every one of them can be well if she wants to. Women go on for years without any knowledge of the science of health, and they take it and get well. It is a positive specific for all weakness and disease of the female organs.

Thousands of women have testified to this fact. Among them Mrs. Maud Pearce, of Stowville, Fairchild Co., Ohio, who wrote to Dr. Pierce for a prescription for the good your doctor has done me. I firmly believe that Dr. Pierce's Prescription saved my life. It is a sure and certain cure for all diseases of the female organs. I am now well and strong and can do all the housework. Nothing did me any good until I heard of you. Now I am well at last by taking your medicines. My eyes, besides pleasure and health, are now strong enough to give me the good wishes. Every invalid lady should take Dr. Pierce's Female Prescription and Guide.

Health, Dr. Pierce, your stomach finds ease in the mouth, fullness, pimpling and palpitation of the heart are all caused by constipation, and constipation is cured positively and permanently by Dr. Pierce's Pleasant Pellets. They are tiny, sugar-coated granules. One "Pellet" is a gentle laxative, and two a mild cathartic. They never grip, and are perfectly natural, and easy in their action. Druggists sell them.
